WHY CHOOSE US?

- Our professional approach to services. Not only in our work but what we require of our team's appearance and customer service with clients.
- Our expertise in pest bird management
- Our expertise in public health pest management
- Time is of the essence with us. We want to get our customers on the schedule. There is no automated system. You speak to our office staff personally.
- The quality of work is another top priority. We have dedication to quality. Our customers sites/homes are treated as if they were our own with the upmost respect for the integrity of the structure.
- We are diligent and require inspections for most services in order to prevent loss of time and cost. We plan for unknowns and break down services for our customers, so they understand what they are truly getting and set realistic expectations.

We make pest control hassle-free

Your home is one of your biggest investments in life but unfortunately, as small as they are, pests can do so much damage to that investment. Ants, termites, and beetles can attack the structural integrity of your home while rodents, roaches, ticks, and bed bugs can spread disease and infest your food and furniture. At TNT Pest Control, we want you to be able to feel the most comfortable in your properties again without worrying about these pests working in the nooks and crannies of your property.
